# A Complete Textile Scenography

Through textiles and printing, an entire decor can be imagined, personalized and coordinated. Fabric is not simply a decorative surface: it becomes a visual language, able to dress a space, express a theme and create a coherent atmosphere from the first impression to the smallest detail.

The creations are designed for weddings, galas, private parties, pool parties, corporate events and, above all, themed evenings: Mediterranean, blue-and-white chic, seaside, garden, oriental, summer-inspired, or entirely built around a brand identity.

### Selected Materials

Lightweight sheers, structured fabrics, upholstery textiles, table linens, durable outdoor supports, soft materials for scarves and accessories: each material is selected according to the desired look, location, use and finish.

### Custom Printing

Patterns, colors, formats, placements and finishes can be adapted to each project. Printing makes it possible to coordinate tablecloths, napkins, cushions, curtains, panels, parasols, tote bags, scarves and guest gifts.

One material, one atmosphere. Each fabric is chosen for its role: a sheer for lightness, a structured canvas for seating, a soft textile for a scarf, or a durable material for outdoor use. The materials echo one another to build one coherent story, from table linen to cushions, curtains and guest gifts.

**Choice of materials, patterns, palettes and finishes**

# Complete Decors & Event Lounges

Printed lounges create instantly recognizable spaces: VIP corners, wedding lounges, photo backdrops, private receptions or branded scenography. Sofas, armchairs, cushions, wall panels and coffee tables can be coordinated around the same pattern to achieve an immersive and elegant effect.

Applications: printed benches, cushions, seating, backrests, decorative panels, side tables, lounge areas, photo settings, VIP lounges and welcome areas.

Desired effect: a strong, harmonious and highly photogenic signature for events where the decor must leave a lasting impression.

# Outdoor Spaces, Terraces & Waterside Events

For outdoor receptions, printed textiles bring shade, movement, freshness and a true visual identity. Curtains, pergolas, awnings, parasols, benches and cushions help create a seaside atmosphere, a chic terrace or a fully designed pool party setting.

Themed evenings: blue-and-white stripes, Mediterranean prints, flowing fabrics, cabanas, stands, mobile bars and coordinated seating transform an outdoor space into a complete event decor.

Everything can be coordinated: from textile ceilings to cushions, from the service cart to the entrance curtain, every element contributes to the overall atmosphere.

# Table Styling & Receptions

Table styling is one of the strongest expressions of textile printing. Tablecloths, runners, placemats, napkins, covers and printed details connect the dinnerware, glassware, flowers and colors of the event. The table becomes a decor in itself, designed both for hosting and for photography.

Products: tablecloths, napkins, placemats, runners, covers, floral textiles, blue patterns, garden decors, lemon-inspired compositions and coordinated details.

Uses: weddings, private dinners, garden parties, galas, brand lunches, brunches, Mediterranean tables or color-themed events.

# Personalized Accessories & Guest Gifts

Accessories extend the event experience. Scarves, pouches, small bags, tote bags and printed supports can be personalized with a pattern, palette, name, message or graphic identity. They serve at once as decoration, keepsake and event signature.

Ideas: welcome scarves, guest gifts, personalized pouches, event tote bags, bridesmaid accessories, corporate gifts and themed party souvenirs.

# Creating a Themed Event with Textiles

Every event can begin with a theme and unfold across all textile supports. An inspiration — seaside, azulejos, garden, oriental chic, black and white, vivid colors, tropical, romantic or corporate — becomes a complete artistic direction. Materials are chosen like chapters of the same story: a canvas structures the furniture, a sheer brings movement, table linen sets the elegance of the table, and a printed accessory extends the memory. Printing then allows these fabrics to speak to one another through patterns, colors and finishes that remain harmonious from the beginning to the end of the evening.

| Category | Applications |
|---|---|
| Textile Decoration | Panels, curtains, sheers, stretched fabrics, wall dressing and photo backdrops. |
| Furniture & Seating | Cushions, benches, armchairs, chair covers, backrests and printed seating. |
| Table Styling | Tablecloths, runners, placemats, napkins, covers and coordinated details. |
| Outdoor | Parasols, pergolas, awnings, curtains, outdoor cushions, mobile bars and benches. |
| Accessories | Scarves, pouches, personalized ribbons, small bags, tote bags and guest gifts. |
| Events | Weddings, galas, themed evenings, pool parties, private receptions and corporate events. |

Principle: no creation is considered a simple isolated product. Each element can be integrated into a global decor, so that the table, seating, accessories, panels and gifts all tell the same visual story.

Harmony: fabrics coordinate through colors, textures and patterns. One material can set the tone, another can add depth, and a third can soften the whole. The event therefore keeps a clear, elegant and easily recognizable line.

# From Pattern to Complete Decor

A textile collection can become the guiding thread of an entire event: it defines the atmosphere, connects the spaces and gives coherence to every detail.

## Tailor-Made Support

Each project can be developed around a theme, palette, pattern or visual identity. Materials can be chosen one by one according to the desired result: flowing, structured, decorative, durable, elegant or delicate. They complement one another like the elements of the same scene: the main fabric sets the atmosphere, secondary materials create contrast, and printed accessories complete the ensemble with finesse.

The result is a coherent, recognizable and personalized event, where textiles become the heart of the decor.
