Textile Printing

Custom printed textiles designed to decorate, dress and define weddings, galas, hotels, restaurants, riads, rooftops, terraces, beach clubs and branded events.

Create a complete atmosphere with textiles

A successful event can be recognised by the coherence of its details. Tablecloths, cushions, parasols, uniforms, textile panels and guest gifts are not only practical items: they build an atmosphere, guide the eye and extend the visual identity of the venue or brand.

Each project can be designed as a collection: a colour palette, a pattern, a graphic signature and coordinated textile supports.

Build a custom textile collection

Every project can start with a simple inspiration: a colour, a pattern, a logo, an atmosphere or a type of event. From this direction, textile supports are selected to create a coherent collection.

Step	What to prepare	Example
1. Context	Type of event, venue, number of guests, indoor or outdoor use	Garden wedding, hotel gala, corporate rooftop
2. Products	Priority products and complementary products	Tablecloths + napkins + cushions + photocall
3. Visual universe	Colours, patterns, logo, Moroccan, floral, modern or minimalist style	Beige, terracotta, olive green, geometric pattern
4. Formats	Dimensions, quantities, finishes and installation constraints	Round tables, parasols, benches, guest kits
5. Order	Lead times, delivery, packaging, restocking or possible installation	Event series or seasonal collection

One identity, several supports

The strength of personalised textiles is to connect all event areas: tables, seating, outdoor spaces, reception, stage, staff and guest gifts.

Request your personalised proposal

Each project can be built from a single product family or from a complete set: table, seating, outdoor, scenography, clothing and guest gifts. The objective is to create visible continuity between all elements of the event.
